The day keeps moving. Freshness can fall behind.

8:00 AM Campus — 10:30 AM Commute — 1:00 PM Lunch — 3:30 PM Class — 6:00 PM Friends — 9:00 PM Still going

The friction isn’t a lack of products. It’s the interruption.

TOO MUCH TO CARRY

Large bottles and full routines don’t fit every spontaneous plan.

TOO EASY TO FORGET

If it lives at home, it can’t help on the move.

TOO MUCH FUSS

Young consumers want quick, simple rituals —not another task.

THE UNMET MOMENT

“I want to feel fresh — without stopping what I’m doing.”

The best product is the one that comes along.

BEHAVIOUR

Keep moving.
Keep plans open.

A product earns a place in a bag when it is useful, easy to carry and easy to use.

STRATEGIC SHIFT

From bathroom routine → everyday carry

Make portability part of the product—not just the advertising.

LONEWOLF
ONE TEAM / BIGGER DREAMS

The Lone Wold Presents

RIZZZ
RESET YOUR DAY

SEASON 5
OVER THE WALL
PUSH THE POSSIBILITIES

THE EVERYDAY RESET, REIMAGINED.

A portable face-refresh concept designed to move with young Bangladesh.

DON’T STOP RIZZING.

Meet RIZZZ. Reset your day. Don’t stop rizzing.

RIZZZ

RESET YOUR DAY

FACE REFRESH SPRAY

PROPOSED ৳70

Price hypothesis • validate with consumers & cost model

Designed to be seen. Built to be carried.

01 GRAB

Small-format 20 ml concept.

02 REFRESH

Simple spray ritual for an on-the-go moment.

03 GO

Back to class, commute or friends.

Packaging mock-up shown; performance and safety require validation.

The innovation is a new carrying behaviour.

01

CLIP

Explore a secure clip-on sleeve or attachment.

02

PROTECT

Cap + leak-resistant closure designed for bags.

03

PERSONALIZE

Scent-coded colours encourage choice and collectability.

DESIGN GATE: validate attachment strength, leakage, hygiene, spray safety and real carry comfort.

Keychain-ready is a development ambition—not a proven specification.

One ritual. Three ways to make it yours.

COOL MINT

Cool & fresh

APPLE MINT

Cool & fresh

LEMON ZEST

Cool & fresh

Win the bag before trying to win the shelf.

CORE

Teens & young adults who move between school, campus, commute and friends.

MOMENTS

Before class • after commute • between plans • before meeting friends.

MOTIVATION

Convenience, self-expression, affordable trial and a fresh-feeling reset.

INITIAL AUDIENCE HYPOTHESIS

Start with urban students and young adults; test teen-specific demand, usage and purchase permissions before targeting minors directly.

RIZZZ competes with the habit—not only the product.

Do nothing	Free, but no refresh ritual
Carry a full-size product	More volume, less portable
Perfume / body spray	Fragrance-led; not the same face-use proposition
Facial mist / toner	Existing category; varies by formula and purpose

POSITIONING: a compact, affordable refresh spray designed around on-the-go use.

A tiny reset can fit a very full day.

PORTABLE

Fits the rhythm

SIMPLE

Easy to understand

PERSONAL

Choose your scent

PORTABILITY × ACCESSIBILITY × IDENTITY

The reason to believe must come from product testing—not just a strong tagline.

A simple route from trial to repeat.

1. TRIAL

Affordable entry price; sampling and campus/retail discovery.

2. ROUTINE

Everyday carry creates repeated usage occasions.

3. REPEAT

Repeat purchases and scent variety, if satisfaction supports it.

POTENTIAL CHANNELS

Campus-adjacent stores • convenience retail • e-commerce • youth activations

Channel fit, distribution economics and retailer margins require validation.

Product Pricing

ONE PRODUCT FORMAT

20 ml

PROPOSED RETAIL PRICE

৳70

Per bottle

PRICING COMPONENT	CURRENT FIGURE
Product size	**20 ml**
Retail selling price	**৳70**
Manufacturing cost / unit	20
Wholesale price / unit	To be set
Retailer margin	To be agreed
Profit per unit	Calculate after cost confirmation

Only the 20 ml variant is in scope. Cost, wholesale price and profit are intentionally left unclaimed until verified.

Launch where the need is already happening.

PHASE 01	**SEED**	Small concept tests + scent preference
PHASE 02	**SHOW**	Campus / commuter sampling with clear use guidance
PHASE 03	**STOCK**	Pilot selected retail and online channels
PHASE 04	**SCALE**	Expand only on repeat, margin and safety signals

Pilot first. Learn fast. Scale what the evidence supports.

A gated roadmap reduces risk before scale.

M1–2

Discover

Interviews, concept and scent tests

M3–4

Develop

Formula, pack, stability & safety work

M5–6

Pilot

Limited launch, sampling, feedback

M7–9

Optimize

Cost, claims, channel and pack revisions

M10–12

Scale decision

Scale, revise or stop based on gates

Gate to advance: safety • consumer acceptance • positive contribution • repeat signal

Trust is part of the product experience.

FORMULA SAFETY

Skin compatibility, microbiological quality and stability testing.

CLAIM DISCIPLINE

Do not promise cleansing, oil control or lasting effects without evidence.

PACK PERFORMANCE

Leakage, spray consistency, cap security and attachment tests.

PRICE PRESSURE

Test cost and willingness-to-pay before committing to ৳70.

MINOR AUDIENCE

Use age-appropriate marketing and review applicable rules before teen targeting.

MARKET DIFFERENCE

Run a structured competitor audit; don’t claim ‘first’ without evidence.

The launch gate is proof—not enthusiasm.

Measure behaviour, not applause.

TRIAL

Sampling → purchase

REPEAT

Repurchase signal

QUALITY

Complaints, leakage, reactions

ECONOMICS

Contribution per unit

RIZZZ

RESET YOUR DAY

A little reset.
A day that keeps going.

RIZZZ — RESET YOUR DAY. DON'T STOP RIZZING.

Appendix: what must be proven next.

CONSUMER

Concept test, target age, scent preference, willingness to pay.

TECHNICAL

Formula brief, safety tests, stability, packaging performance.

COMMERCIAL

Supplier quotes, COGS, retailer margin, taxes, channel economics.

ASSUMPTIONS USED IN THIS DECK

- Proposed retail price: ৳70 per bottle (unvalidated hypothesis)
- Product visual shows 20 ml concept bottles and three scent directions
- Clip-on / keychain format is a packaging development opportunity, not final engineering
- No market size, sales forecast or profit projection is claimed without supporting data
- Competitive positioning and target-audience fit require primary research

Source basis: user-provided RIZZZ product profile and supplied brand/product assets; estimates are explicitly labelled as hypotheses.
