Unlocking the JIBON Market: Understanding Our Core Consumers

JIBON speaks directly to the aspirations and daily realities of Bangladesh's youth. We've identified key segments that resonate with our brand's promise of safe, stylish hydration.

Demographics

A vibrant generation aged 18-30, comprising Gen Z and early Millennials. They reside in bustling urban centers like Dhaka and Chattogram, and are part of the growing middle to upper-middle income bracket.

Lifestyle

From students to young professionals, they're constantly on the move – frequenting cafes, hitting the gym, and navigating commutes. They're health-conscious, seeking refreshments that are both safe and stylish, often carrying bottles as part of their daily essentials.

Psychographics

This audience values authenticity and trusts local brands. They crave individuality, trendiness, and experiences worth sharing online. Their emotional drivers include community connections, national pride, and finding joy in everyday moments.

Our re-designed logo

JIBON: Hydration Meets Lifestyle

> For young Bangladeshis seeking safe hydration with a stylish edge, **JIBON** is the design-forward and trustworthy water brand that transforms everyday refreshment into a proud, shareable lifestyle moment – unlike generic bottles that feel bland and disposable.

শুদ্ধ শক্তি, প্রত্যেক ঘন্টায়

Our new tagline encapsulates JIBON's essence: providing (Pure energy, every hour). It's a powerful promise of reliability and aspiration, echoing the modern Bangladeshi youth's desire for both quality and self-expression in their daily choices.

Celebrating Life's Moments with JIBON

Our core brand idea, “জীবনের মুহূর্ত, JIBON এর সাথে” (Life's Moments, with JIBON), invites consumers to see JIBON as more than just water. Every sip symbolizes a precious life moment worth celebrating, connecting with their journey.

01

Everyday Joy

JIBON encourages users to capture and share ordinary yet joyful experiences – from focused study breaks and calm metro rides to lively café hangouts. It's about finding beauty in the routine.

02

Self-Expression

JIBON becomes an essential accessory, a seamless connector between refreshing hydration and authentic self-expression. It’s a subtle nod to their unique identity.

03

Community & Pride

This idea fosters a sense of community, empowering consumers to share their unique stories and feel proud of their choices, with JIBON by their side, amplifying their moments.

Introducing the SnapBottle: Design That Elevates

The **SnapBottle** isn't just a container; it's a statement. Its innovative design instantly distinguishes JIBON from commodity water, encouraging user-generated content and organic promotion through its inherent photogenic quality.

Sleek Shape

A slightly rectangular silhouette, engineered for easy grip and sleek portability. It fits perfectly in bags and looks fantastic in photos, making it a stylish companion.

Premium Texture

A sophisticated matte surface provides a premium tactile feel, reduces camera glare, and adds a chic aesthetic, ensuring every photo is Instagram-ready.

Interactive Features

An integrated QR/NFC spot on the label unlocks exclusive AR filters for playful content creation and provides helpful hydration tips, transforming the bottle into an interactive digital experience.

Igniting Brand Presence: JIBON Activation Strategy

Our multi-channel activation plan focuses on highly engaging initiatives that resonate deeply with our target audience, driving visibility and brand recall across key touchpoints.

Campus Activations

Energizing campus activations will feature free refill stations and #JibonMoments contests, fostering early brand loyalty and community among students.

Digital First Campaign

A dynamic digital-first campaign, leveraging TikTok and Instagram Reels challenges, will encourage users to share their 'life moment with JIBON,' sparking viral engagement.

Retail POP

In-store presence will be elevated with neon-lit chillers and eye-catching 'SnapSpot' decals, creating irresistible selfie opportunities at point of purchase.

Local Pride Editions

Limited edition, city-themed labels (Dhaka, Chattogram, Sylhet) will celebrate local pride and drive collectibility, strengthening regional connection.

OOH + AR

Innovative Out-of-Home (OOH) street murals will unlock immersive Augmented Reality (AR) effects when scanned with a JIBON bottle, transforming urban spaces into interactive brand experiences.
